Dr

Dr David Macey (dentist)

Dr Clayton Prince  
Dr John C Prince DDS PC 650 W 200 N

Dr Ed T Sperry 1670 N. Dutch Canyon

Dr Robert Sweeton (lived in Springtown in  
Wendell Cluff home)

Dr Bryce Wilson

Medicaid will not reimburse medical supplies for patients enrolled in any HMO.

#### Medical Supplies for Patients Not in an HMO

When a patient's Medicaid card does not list an HMO, and prior approval is required for a medical supply, obtain the approval from Medicaid. Bill approved injectable supplies and enteral feeding products and supplies on a HCFA 1500 Form.

If you have a question, contact Duane Parke at 538-6452, or call 1-800-662-9651 toll free and ask for Duane Parke at extension 86452. □

### 95-17 Pharmacy Benefits and Prior Approval

#### Patients enrolled in FHP and MedUtah

When a patient's Medicaid card shows the patient is enrolled in either FHP or MedUtah as a health maintenance organization (HMO), patients are restricted to the pharmacy program in that HMO. FHP has its own pharmacy, and MedUtah currently contracts with Smith's pharmacies.

#### All other Medicaid patients

Patients may use any Medicaid pharmacy when the Medicaid card shows no pharmacy restriction or enrollment in an HMO other than FHP or MedUtah. For these patients, when prior approval is required for a drug, obtain the approval from Medicaid. Medicaid reimburses drugs directly to the pharmacy.

### Patients with Pharmacy Restriction

Some patients have a pharmacy restriction on the Medicaid card. No other pharmacist is allowed for Medicaid. When prior approval is required for a drug, obtain the approval from Medicaid.

If you have a question, contact Duane Parke at 538-6452, or call 1-800-662-9651 toll free and ask for Duane Parke at extension 86452. □

### 95-18 Newborn Intensive Care Codes Reimbursable To Neonatologists

Three newborn intensive care unit (NICU) codes have been opened to neonatologists retroactive to April 1, 1994. The codes are as follows:

- 99295 Initial NICU care for evaluation and management of a critically ill neonate or infant.
- 99296 Subsequent NICU care for evaluation and management of a critically ill and unstable neonate or infant.
- 99297 Subsequent NICU care for evaluation and management of a critically ill and stable neonate or infant.

These codes will be corrected in Appendix 7C of the Surgical Procedures manual to indicate neonatologists may bill for the codes. We apologize for any inconvenience this delay may have caused in submitting claims. If you have a question, call Urla Jeane Maxfield at 538-6498, or call 1-800-662-9651 toll free and ask for Urla Jeane Maxfield at extension 86498. □

### 95-19 Manuals Issued to Targeted Case Management Providers

Medicaid manuals were issued recently to Targeted Case Management Providers and Mental Health Services Providers. Manuals issued were as follows:

- ▶ Targeted Case Management for the Chronically Mentally Ill
- ▶ Targeted Case Management for the Homeless
- ▶ Targeted Case Management for CHEC/Substance Abuse
- ▶ Diagnostic and Rehabilitative Mental Health Services Provided by DHS Contractors

If you are a Targeted Case Management Provider or Mental Health Services Provider and did not receive a manual recently, call Karen Ford at 538-6637, or call 1-800-662-9651 toll free and ask for Karen Ford at extension 86637. □
